Body Style:

Plain, solid

Attachment Method:

Clamp

Pitch Diameter:

2.5000 inches

Teeth Quantity:

120

Bore Style:

Plain both ends

Hardness Rating:

67.7 rockwell c

Outside Diameter:

2.656 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.375 inches first end

Face Width:

0.125 inches

Bore Diameter:

0.250 inches both ends

Hub Style Designator:

Plain first end

Hub Diameter:

0.313 inches first end

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6, t6 federal specification single material response

Surface Treatment:

Anodize

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
