Body Style:
Webbed, offset, solid
Spline Quantity:
14 both ends
Pitch Diameter:
3.2500 inches
Teeth Quantity:
52
Bore Style:
Involute spline both ends
Spline Pitch Diameter:
0.5833 inches both ends
Outside Diameter:
3.375 inches
Tooth Form:
Standard
Pressure Angle:
20.0000 degrees
Distance Between Body Face And Protruding Hub End:
0.781 inches first end
Body Recess Depth:
0.1870 inches second end
Face Width:
0.687 inches
Bore Diameter:
0.599 inches both ends
Hub Style Designator:
Plain first end
Hub Diameter:
1.0000 inches first end
Precision Classification:
Quality number 11
Special Features:
Counterbore on second end, 0.657 in. Diameter 0.719 in. Deep $$
Material:
Steel
Style Designator:
Protruding hub, recessed body
Shelf Life:
N/a
Unit Of Measure:

--
