Bolt Circle Diameter:

1.660 inches

Bore Length:

0.860 inches

Drilled Hole Diameter:

0.375 inches

Securing Hole Quantity:

4

Taper Bore Major Diameter:

0.2814 inches

Taper Bore Minor Diameter:

0.2500 inches

Material And Location:

Brass qq-b-613 composition 22

Design Form:

Webbed

Bore Type:

Tapered

Bearings:

Not included

Counterbore Feature:

Not included

Hole Location:

Through pulley body 90 degrees apart

Keying Facility:

Not included

Securing Method:

Drilled hole

Split Hub Feature:

Not included

Web/spoke Relationship To Face Centerline:

Offset

Lightening Hole:

Not included

Integral Cooling Vane:

Not included

Crown Face:

Not included

Rim Type:

Solid

Bore Feature:

Included

Criticality Code Justification:

Anal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T353-a
