Body Style:

Plain, solid

Attachment Method:

Mounting hole

Pitch Diameter:

4.2500 inches

Teeth Quantity:

153

Bore Style:

Plain both ends

Mounting Hole Thread Qty Per Inch (tpi):

40 transversely through flange

Mounting Hole Thread Size:

0.138 inches transversely through flange

Mounting Hole Type And Quantity:

8 threaded transversely through flange

Outside Diameter:

4.305 inches

Distance Between Body Face And Protruding Hub End:

0.530 inches first end

Body Recess Depth:

0.275 inches first end

Face Width:

0.080 inches

Bore Diameter:

0.531 inches both ends

Hub Style Designator:

Plain first end

Hub Diameter:

0.625 inches first end

Bolt Hole Circle Diameter:

0.113 inches transversely through flange

Style Designator:

Cone shape body, protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
