Body Style:

Plain, solid

Attachment Method:

Mounting hole

Pitch Diameter:

5.5750 inches

Teeth Quantity:

56

Bore Style:

Plain both ends

Mounting Hole Type And Quantity:

8 plain transversely through flange and 12 plain transversely through flange

Outside Diameter:

5.800 inches

Tooth Form:

Standard

Flange Diameter:

9.115 inches

Flange Thickness:

0.385 inches

Face Width:

0.625 inches

Bore Diameter:

4.7405 inches both ends

Distance Between Outer Body Face And Inner Flange Face:

1.742 inches

Special Features:

Bearings included

Material:

Steel

Style Designator:

Flanged end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
