Pitch Diameter:

0.8125 inches

Teeth Quantity:

52

Outside Diameter:

0.844 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.856 inches first end

Face Width:

0.042 inches

Hub Style Designator:

2 steps both ends

End Length:

0.801 inches first end

End Diameter:

0.031 inches both ends

First Step Length:

0.031 inches second end

First Step Diameter:

0.058 inches both ends

Second Step Length:

0.031 inches first end

Second Step Diameter:

0.262 inches first end

Material:

Stainless steel teeth

Style Designator:

Protruding hubs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
