Body Style:

Plain, solid

Attachment Method:

Mounting hole

Pitch Diameter:

4.5000 inches

Teeth Quantity:

54

Bore Style:

Plain both ends

Mounting Hole Type And Quantity:

4 plain transversely through flange

Outside Diameter:

4.688 inches

Tooth Form:

Standard

Flange Diameter:

4.250 inches

Flange Thickness:

0.875 inches

Face Width:

0.625 inches

Bore Diameter:

1.063 inches both ends

Distance Between Outer Body Face And Inner Flange Face:

3.125 inches

Mounting Hole Diameter:

0.312 inches transversely through flange

Bolt Hole Circle Diameter:

3.000 inches transversely through flange

Special Features:

Both ends counterbored 3.875 in. Dia. And 0.343 in. Deep

Material:

Steel

Style Designator:

Flanged end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
