Pitch Diameter:

1.7500 inches

Face Type:

Straight

Outside Diameter:

2.183 inches

Thread Form Quantity:

4

Thread Form Direction:

Right-hand

Pressure Angle:

29.0000 degrees

Helix Angle:

29.7331 degrees

Distance Between Body Face And Protruding Hub End:

4.422 inches first end

Face Width:

4.000 inches

Hub Style Designator:

1 step both ends

End Length:

4.183 inches first end

End Diameter:

0.984 inches both ends

First Step Length:

0.234 inches both ends

First Step Diameter:

1.250 inches both ends

Special Features:

6 splines 1st end hub, 1 plain mtg hole 0.344 in. Diameter in hub

Material:

Steel

Style Designator:

Protruding hubs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
