## **Pitch Diameter:**

1.7500 inches

## Face Type:

Straight

## Outside Diameter:

2.183 inches

## **Thread Form Quantity:**

4

## Thread Form Direction:

**Right-hand** 

## Pressure Angle:

29.0000 degrees

## Helix Angle:

29.7331 degrees

## Distance Between Body Face And Protruding Hub End:

## 4.422 inches first end

Face Width:

4.000 inches

## Hub Style Designator:

1 step both ends

# End Length:

4.183 inches first end

## End Diameter:

0.984 inches both ends

## First Step Length:

0.234 inches both ends

## First Step Diameter:

1.250 inches both ends

## **Special Features:**

6 splines 1st end hub, 1 plain mtg hole 0.344 in. Diameter in hub

## Material:

Steel

## Style Designator:

Protruding hubs

Shelf Life:

N/a

# Unit Of Measure:

---

# Demilitarization:

No

Fiig:

A27300
