Pitch Diameter:

1.0000 inches

Face Type:

Straight

Bore Style:

Plain both ends

Outside Diameter:

1.162 inches

Thread Form Quantity:

4

Thread Form Direction:

Right-hand

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.375 inches first end

Face Width:

1.375 inches

Bore Diameter:

0.628 inches both ends

Hub Style Designator:

Plain first end

Material:

Plastic

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
