Body Style:

Plain, solid

End Application:

B57, f4 acft

Pitch Diameter:

2.4500 inches

Teeth Quantity:

49

Bore Style:

Flatted sides both ends

Backlash Designation:

Grade a

Outside Diameter:

2.555 inches

Nominallength:

0.320 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.195 inches first end

Face Width:

0.120 inches

Radius:

0.282 inches both ends

Hub Style Designator:

Plain first end

Hub Diameter:

0.719 inches first end

Material:

Steel

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
