Body Style:

Spoked

Pitch Diameter:

2.5000 inches

Teeth Quantity:

80

Face Type:

Concave

Bore Style:

Plain both ends

Outside Diameter:

2.590 inches

Tooth Direction:

Right

Throat Radius:

0.219 inches

Mating Thread Lead Quantity:

2

Pressure Angle:

20.0000 degrees

Helix Angle:

8.1333 degrees

Distance Between Body Face And Protruding Hub End:

0.313 inches first end

Face Width:

0.219 inches

Bore Diameter:

0.313 inches both ends

Hub Style Designator:

Plain both ends

Hub Diameter:

0.688 inches both ends

Material:

Copper alloy

Style Designator:

One protruding hub, one flush hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
