Body Style:

Plain, solid

Attachment Method:

Mounting hole

Pitch Diameter:

1.6270 inches

Teeth Quantity:

78

Outside Diameter:

1.666 inches

Nominallength:

0.323 inches

Pressure Angle:

14.5000 degrees

Distance Between Body Face And Protruding Hub End:

0.157 inches first end

Face Width:

0.115 inches

Bore Diameter:

0.250 inches both ends

Hub Diameter:

0.438 inches first end

Mounting Hole Diameter:

0.082 inches transversely through hub, first end

Style Designator:

Protruding hubs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
