Body Style:

Plain, solid

Pitch Diameter:

3.5000 inches

Outside Diameter:

3.5815 inches

Nominallength:

1.883 inches

Teeth Type:

Straight

Pressure Angle:

14.5000 degrees

Body Recess Depth:

0.2267 inches first end

Face Width:

0.500 inches

Distance From Bore Center To Keyway Bottom:

0.5307 inches both ends

Special Features:

Ref spcc procurement specification for additional design data

Material:

Steel comp 4140

Material Specification:

66 federal standard single material response and aisi/sae 4140 assn standard single material response

Style Designator:

Peripheral face, back hub protruding

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
