Body Style:

Plain, with lightening holes

Pitch Diameter:

1.5000 inches

Teeth Quantity:

48

Bore Style:

Flatted sides both ends

Outside Diameter:

1.562 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.015 inches second end

Face Width:

0.108 inches

Radius:

0.1255 inches both ends

Hub Style Designator:

Plain both ends

Hub Diameter:

0.375 inches second end

Material:

Copper alloy

Style Designator:

Protruding hubs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
