Body Style:

Plain, solid

Attachment Method:

Clamp

Pitch Diameter:

0.5625 inches

Teeth Quantity:

36

Outside Diameter:

0.594 inches

Nominallength:

0.406 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.219 inches first end

Face Width:

0.187 inches

Hub Diameter:

0.400 inches first end

Clamping Surface Length:

0.188 inches first end

Surface Treatment:

Chromium

Surface Treatment Specification:

Mil-f-14072 military specification single treatment response

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300

Mil-std (military Standard):

Mil-f-14072 spec.
