Pitch Diameter:

0.4166 inches

Nominallength:

0.580 inches

Teeth Type:

Straight

Pressure Angle:

20.0000 degrees

Material:

Steel comp 416se

Material Specification:

Qq-s-763, class 416se federal specification single material response

Surface Treatment:

Phosphate

Style Designator:

Peripheral face, back hub protruding

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
