Body Style:

Plain, solid

Attachment Method:

Mounting hole

Pitch Diameter:

0.5000 inches

Teeth Quantity:

24

Outside Diameter:

0.542 inches

Nominallength:

0.312 inches

Tooth Form:

Standard

Pressure Angle:

14.5000 degrees

Distance Between Body Face And Protruding Hub End:

0.188 inches first end

Face Width:

0.125 inches

Bore Diameter:

0.251 inches both ends

Hub Diameter:

0.375 inches first end

Mounting Hole Diameter:

0.076 inches transversely through hub, first end

Material:

Copper alloy

Surface Treatment:

Cadmium

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
