Pitch Diameter:

0.2650 inches

Face Type:

Straight

Bore Style:

Plain both ends

Outside Diameter:

0.290 inches

Thread Form Quantity:

3

Thread Form Direction:

Right-hand

Pressure Angle:

20.0000 degrees

Helix Angle:

8.1332 degrees

Distance Between Body Face And Protruding Hub End:

0.436 inches first end

Face Width:

0.298 inches

Bore Diameter:

0.124 inches both ends

Hub Style Designator:

Plain first end

Hub Diameter:

0.345 inches first end

Material:

Steel comp 1141

Material Specification:

66 federal standard single material response

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
