Body Style:

Plain, solid

Attachment Method:

Clamp

Pitch Diameter:

0.5000 inches

Bore Style:

Plain both ends

Outside Diameter:

0.541 inches

Nominallength:

0.540 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.420 inches first end

Face Width:

0.120 inches

Bore Diameter:

0.236 inches both ends

Hub Style Designator:

Split first end

Hub Diameter:

0.300 inches first end

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6, t4 federal specification single material response

Surface Treatment:

Chromate

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
