**Body Style:**

Plain, solid

**Attachment Method:**

Clamp

**Pitch Diameter:**

0.5000 inches

**Bore Style:**

Plain both ends

**Outside Diameter:**

0.541 inches

**Nominallength:**

0.540 inches

**Tooth Form:**

Standard

**Pressure Angle:**

20.0000 degrees

**Distance Between Body Face And Protruding Hub End:**

0.420 inches first end

**Face Width:**

0.120 inches

**Bore Diameter:**

0.236 inches both ends

**Hub Style Designator:**

Split first end

**Hub Diameter:**

0.300 inches first end

**Material:**

Aluminum alloy 2024

**Material Specification:**

Qq-a-225/6, t4 federal specification single material response

**Surface Treatment:**

Chromate

**Style Designator:**

Protruding hub

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A27300
