Body Style:

Plain, solid

Teeth Quantity:

78

Bore Style:

Plain both ends

Nominallength:

0.156 inches

Tooth Direction:

Right

Pressure Angle:

20.0000 degrees

Face Width:

0.065 inches

Bore Diameter:

0.250 inches both ends

Hub Style Designator:

Plain first end

Hub Diameter:

0.375 inches first end

Material:

Aluminum alloy

Material Specification:

Qq-a-268, cond t4 federal specification single material response

Surface Treatment:

Anodize

Style Designator:

Peripheral face, front hub protruding

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
