Pitch Diameter:

1.5000 inches

Face Type:

Straight

Bore Style:

Plain both ends

Outside Diameter:

1.700 inches

Thread Form Quantity:

1

Thread Form Direction:

Right-hand

Pressure Angle:

20.0000 degrees

Helix Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.875 inches first end

Face Width:

1.500 inches

Bore Diameter:

0.625 inches both ends

Hub Style Designator:

Plain first end

Hub Diameter:

1.125 inches first end

Material:

Steel

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
