Body Style:

Plain, solid

Attachment Method:

Mounting hole

Pitch Diameter:

2.0000 inches

Teeth Quantity:

96

Outside Diameter:

2.041 inches

Nominallength:

0.375 inches

Tooth Form:

Standard

Pressure Angle:

14.5000 degrees

Distance Between Body Face And Protruding Hub End:

0.250 inches first end

Face Width:

0.125 inches

Bore Diameter:

0.251 inches both ends

Hub Diameter:

0.500 inches first end

Material:

Copper alloy

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
