Body Style:

Plain, solid

Attachment Method:

Clamp

Pitch Diameter:

1.1250 inches

Teeth Quantity:

54

Outside Diameter:

1.219 inches

Nominallength:

0.493 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.300 inches first end

Face Width:

0.093 inches

Bore Diameter:

0.250 inches both ends

Precision Classification:

Quality number 8

Style Designator:

Protruding hubs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
