**Body Style:**

Plain, solid

**Attachment Method:**

Mounting hole

**Pitch Diameter:**

5.9375 inches

**Teeth Quantity:**

285

**Bore Style:**

Plain both ends

**Mounting Hole Thread Series Designator:**

Unc axially through body, first end

**Mounting Hole Thread Size:**

0.138 inches axially through body, first end

**Mounting Hole Type And Quantity:**

6 threaded axially through body, first end

**Outside Diameter:**

5.976 inches

**Tooth Form:**

Standard

**Pressure Angle:**

20.0000 degrees

**Distance Between Body Face And Protruding Hub End:**

0.500 inches first end

**Face Width:**

0.250 inches

**Bore Diameter:**

5.976 inches both ends

**Hub Style Designator:**

Plain first end

**Hub Diameter:**

5.750 inches first end

**Material:**

Aluminum alloy 6061

**Material Specification:**

Qq-a-250/11, t6 federal specification single material response

**Surface Treatment:**

Anodize

**Surface Treatment Specification:**

Mil-a-8625, type 2, class 1 military specification single treatment response

**Style Designator:**

Protruding hub

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A27300

**Mil-std (military Standard):**

Mil-a-8625 spec.
