Spline Quantity:

16 both ends

Teeth Quantity:

96

Bore Style:

Involute spline both ends

Spline Pitch Diameter:

0.8000 inches both ends

Hardness Rating:

155.0 brinell standard

Teeth Type:

Single helix

Tooth Direction:

Right

Pressure Angle:

14.5000 degrees

Helix Angle:

30.0000 degrees

Hub Style Designator:

Plain both ends

Hub Diameter:

1.378 inches both ends

Special Features:

Both ends counterbored, 1.000 in. Diameter by 0.688 in. Dp

Material:

Steel comp 1045

Material Specification:

Qq-s-633 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
