Pitch Diameter:

0.6250 inches

Teeth Quantity:

20

Bore Style:

W/counterbore both ends

Nominallength:

0.625 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.265 inches first end

Face Width:

0.219 inches

Bore Diameter:

0.188 inches both ends

Counterbore Depth:

0.063 inches first end

Style Designator:

Protruding hubs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
