Attachment Method:

Clamp

Pitch Diameter:

1.7500 inches

Teeth Quantity:

112

Outside Diameter:

1.764 inches

Nominallength:

0.438 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.308 inches first end

Face Width:

0.120 inches

Bore Diameter:

0.125 inches both ends

Hub Style Designator:

Split first end

Hub Diameter:

0.187 inches first end

Clamping Surface Length:

0.188 inches first end

Precision Classification:

Quality number 12

Material:

Steel comp 303 hub

Material Specification:

Qq-s-763 federal specification single material response hub

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
