Body Style:

Webbed, solid

Attachment Method:

Mounting hole

Pitch Diameter:

1.8440 inches

Teeth Quantity:

59

Backlash Designation:

Grade e

Outside Diameter:

1.906 inches

Nominallength:

0.375 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.219 inches first end

Face Width:

0.156 inches

Bore Diameter:

0.157 inches both ends

Hub Style Designator:

Plain both ends

Hub Diameter:

0.313 inches second end

Precision Classification:

Quality number 10 or quality number 11

Mounting Hole Diameter:

0.036 inches transversely through hub, first end

Style Designator:

One protruding hub, one flush hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
