Body Style:

Plain, solid

Attachment Method:

Clamp

Pitch Diameter:

0.5833 inches

Teeth Quantity:

28

Outside Diameter:

0.625 inches

Nominallength:

0.452 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Face Width:

0.109 inches

Bore Diameter:

0.156 inches both ends

Hub Diameter:

0.249 inches first end

Clamping Surface Length:

0.250 inches first end

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-225/8, t4 federal specification single material response

Surface Treatment:

Anodize

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
