Body Style:

Plain, solid

Attachment Method:

Mounting hole

Pitch Diameter:

16.3750 inches

Teeth Quantity:

131

Outside Diameter:

19.5620 inches

Teeth Type:

Spur

Tooth Form:

Stub

Pressure Angle:

20.0000 degrees

Mounting Hole Diameter:

0.453 inches axially through flange

Material:

Steel comp e9310

Material Specification:

Ams 6260 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
