Spline Quantity:

15 both ends

Pitch Diameter:

10.7500 inches

Teeth Quantity:

57

Bore Style:

Involute spline both ends

Outside Diameter:

10.8750 inches

Nominallength:

2.625 inches

Tooth Direction:

Right

Distance Between Body Face And Protruding Hub End:

0.625 inches first end

Face Width:

2.000 inches

Material:

Steel

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
