Pitch Diameter:

6.9000 inches

Teeth Quantity:

69

Nominallength:

0.875 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.125 inches first end

Face Width:

0.750 inches

Keyway Width:

0.189 inches both ends

Hub Style Designator:

Plain both ends

Hub Diameter:

2.000 inches second end

Precision Classification:

Quality number 5 or quality number 6

Style Designator:

One protruding hub, one flush hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
