Body Style:

Plain, solid

Attachment Method:

Clamp

Pitch Diameter:

1.2500 inches

Teeth Quantity:

60

Outside Diameter:

1.291 inches

Nominallength:

0.406 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.281 inches first end

Face Width:

0.125 inches

Bore Diameter:

0.125 inches both ends

Precision Classification:

Quality number 10 or quality number 11

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
