Bore Style:

Plain both ends

Design Type:

Spur second gear

Construction:

Assembled

Outside Diameter:

0.2292 inches second gear

Nominallength:

0.224 inches

Bore Diameter:

0.094 inches both ends

Precision Classification:

Quality number 10 all gears

Material:

Steel

Surface Treatment:

Passivate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A270a0
