Body Style:

Plain, solid

Attachment Method:

Mounting hole

Pitch Diameter:

0.7500 inches

Teeth Quantity:

24

Outside Diameter:

0.812 inches

Nominallength:

0.812 inches

Tooth Form:

Standard

Pressure Angle:

14.5000 degrees

Face Width:

0.062 inches

Bore Diameter:

0.250 inches both ends

Hub Diameter:

0.499 inches first end

Mounting Hole Diameter:

0.126 inches transversely through hub, first end

Surface Treatment:

Passivate

Style Designator:

Protruding hubs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
