Pitch Diameter:

1.4062 inches

Teeth Quantity:

90

Nominallength:

0.375 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.255 inches first end

Face Width:

0.120 inches

Bore Diameter:

0.125 inches both ends

Hub Diameter:

0.375 inches first end

Precision Classification:

Quality number 12

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
