Bore Style:

Thread series designator partially threaded both ends

Construction:

Assembled

Outside Diameter:

2.6041 inches first gear

Nominallength:

2.000 inches

Supplementary Features:

Gear data: 123 teeth, 48 pitch, 2.5625 in. Pitch dia, involute tooth form, 20 deg. Press. Angle, meshes with p/n 149c130; consists of 1 pinion and gear assembly and 1 gear, blank

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A270a0
