Body Style:

Webbed, solid

Serration Quantity:

29 both ends

End Application:

C130 acft

Pitch Diameter:

6.5460 inches

Teeth Quantity:

106

Bore Style:

Serrated both ends

Serration Pitch Diameter:

0.9062 inches both ends

Outside Diameter:

6.671 inches

Nominallength:

1.880 inches

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

1.218 inches first end

Face Width:

0.500 inches

Hub Style Designator:

Plain both ends

Hub Diameter:

1.120 inches both ends

Material:

Steel

Style Designator:

Protruding hubs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
