Bore Style:

Plain both ends

Design Type:

Spur second gear

Construction:

Solid

Nominallength:

0.500 inches

Hub Length:

0.361 inches between first and second gear

Bore Diameter:

0.187 inches both ends

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-268, alloy 2024, t4 cancel /d/ federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A270a0
