Body Style:

Plain, solid

Attachment Method:

Clamp

Pitch Diameter:

0.3750 inches

Teeth Quantity:

18

Nominallength:

0.562 inches

Tooth Form:

Standard

Pressure Angle:

14.5000 degrees

Face Width:

0.234 inches

Bore Diameter:

0.156 inches both ends

Precision Classification:

Quality number 10 or quality number 11

Style Designator:

Protruding hubs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
