Pitch Diameter:

0.5000 inches

Bore Style:

Plain both ends

Outside Diameter:

0.583 inches

Thread Form Quantity:

2

Thread Form Direction:

Right-hand

Pressure Angle:

20.0000 degrees

Helix Angle:

9.4665 degrees

Distance Between Body Face And Protruding Hub End:

0.250 inches first end

Face Width:

0.812 inches

Bore Diameter:

0.250 inches both ends

Hub Style Designator:

Plain first end

Hub Diameter:

0.380 inches first end

Material:

Stainless steel

Style Designator:

Protruding hub

Reference Number Differentiating Characteristics:

As differentiated by material

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
