# **Pitch Diameter:**

0.5000 inches

#### Bore Style:

Plain both ends

# Outside Diameter:

0.583 inches

# **Thread Form Quantity:**

2

# Thread Form Direction:

**Right-hand** 

# Pressure Angle:

20.0000 degrees

#### **Helix Angle:**

9.4665 degrees

# Distance Between Body Face And Protruding Hub End:

0.250 inches first end

# Face Width:

0.812 inches

# Bore Diameter:

0.250 inches both ends

# Hub Style Designator:

Plain first end

# Hub Diameter:

0.380 inches first end

# Material:

Stainless steel

# Style Designator:

Protruding hub

# **Reference Number Differentiating Characteristics:**

As differentiated by material

# Shelf Life:

N/a

# Unit Of Measure:

---

# Demilitarization:

No

# Fiig:

A27300
