Body Style:

Plain, solid

Attachment Method:

Clamp

Pitch Diameter:

0.5000 inches

Outside Diameter:

0.5280 inches

Nominallength:

0.544 inches

Tooth Direction:

Right

Body Recess Depth:

0.0400 inches first end

Face Width:

0.095 inches

Bore Diameter:

0.156 inches both ends

Special Features:

Hub has four equally spaced slots parallel to the bore 0.020 in. Wide by 0.380 in. Deep from end of hub

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6, t4 federal specification single material response

Surface Treatment:

Anodize

Style Designator:

Peripheral face, back hub protruding

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
