Pitch Diameter:

1.2668 inches

Outside Diameter:

1.600 inches

Thread Form Quantity:

2

Thread Form Direction:

Right-hand

Pressure Angle:

28.0000 degrees

Distance Between Body Face And Protruding Hub End:

4.375 inches first end

Face Width:

5.270 inches

Hub Style Designator:

2 steps both ends

End Length:

2.438 inches first end

End Diameter:

1.000 inches both ends

First Step Length:

0.938 inches second end

First Step Diameter:

1.125 inches both ends

Second Step Length:

0.955 inches second end

Second Step Diameter:

1.250 inches both ends

Material:

Steel

Style Designator:

Protruding hubs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
