Pitch Diameter:

Between 0.9681 inches and 0.9688 inches

Teeth Quantity:

93

Backlash Designation:

Grade c

Tooth Form:

Standard

Pressure Angle:

20.0000 degrees

Distance Between Body Face And Protruding Hub End:

0.187 inches first end

Face Width:

0.125 inches

Bore Diameter:

0.187 inches both ends

Precision Classification:

Quality number 12

Material:

Aluminum alloy 2024

Surface Treatment:

Anodize

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
