Bore Style:

Plain both ends

Design Type:

Spur second gear

Construction:

Assembled

Outside Diameter:

0.6417 inches second gear

Nominallength:

0.500 inches

Bore Diameter:

0.250 inches both ends

Precision Classification:

Quality number 10 first gear or quality number 11 first gear

Material:

Aluminum alloy

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A270a0
