Body Style:

Plain, solid

Attachment Method:

Mounting hole

Pitch Diameter:

1.0000 inches

Teeth Quantity:

64

Bore Style:

Plain both ends

Mounting Hole Thread Series Designator:

Unc transversely through hub, first end

Nominallength:

0.796 inches

Tooth Direction:

Right

Mating Thread Lead Quantity:

1

Pressure Angle:

20.0000 degrees

Helix Angle:

1.7833 degrees

Distance Between Body Face And Protruding Hub End:

0.375 inches first end

Face Width:

0.187 inches

Hub Diameter:

0.500 inches second end

Material:

Copper alloy 462

Style Designator:

Protruding hubs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A27300
