Body Style:

Plain, solid

Attachment Method:

Mounting hole

Pitch Diameter:

1.8215 inches

Teeth Quantity:

34

Nominallength:

1.094 inches

Tooth Form:

Standard

Pressure Angle:

14.5000 degrees

Distance Between Body Face And Protruding Hub End:

0.594 inches first end

Face Width:

0.500 inches

Bore Diameter:

0.376 inches both ends

Hub Diameter:

0.688 inches first end

Mounting Hole Diameter:

0.375 inches transversely through hub, first end

Material:

Plastic

Style Designator:

Protruding hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A27300
